

AFRICAN MIRACLE

African Miracle - Honeybush tea is harvested from *Cyclopia Intermedia*, a scented plant with yellow flowers and trifoliate leaves, which is cultivated around Haarlem in South Africa. This tea has a gorgeous fragrance from sunflower, jasmine & rose petals and natural grapefruit flavouring. African Miracle is naturally caffeine free and is high in iron, magnesium and Vitamin C.

Tasting Notes African Miracle honeybush tea makes a pale, rust red infusion with a slightly floral, honeyed taste. It is light, very pleasant and easy to drink at any time of the day. Drink alone or add some sugar or honey.

Please note only the Honeybush is registered organic
