

OUR TEAS

Our finest quality tippy golden leaf tea is picked during the peak second flush season. Our signature blends are 100% Assam Orthodox tea and 100% Darjeeling tea. These exclusive blends display the Assam and Darjeeling logos, certified marks of the Tea Board of India, as proof of authenticity. 'Darjeeling Tea' and 'Assam Orthodox Tea' are protected internationally as Geographical Indications (GI).

Only teas exclusively from tea gardens located within a defined geographical region can display the Assam or Darjeeling logos. These gardens meet criteria laid down by the Tea Board of India for planting, growing, plucking, processing and production of tea.

OUR PACKAGING

Our packaging is functional and eco-friendly. Shortly after blending, our tea is sealed in recyclable aluminium foil to retain maximum freshness. The tea is then packed in foil-lined, resealable pouches. Each master case, containing six pouches, has a perforated tear-off lid allowing for easy display.

We source our tea ethically and trade fairly and we value the people who work with us at every stage of tea production. Our tea is packed in a HACCP, BRC, Orthodox Union and Social Accountability 8000 certified unit.

OUR LUXURY TEA BAGS

Our luxury tea bags are designed to hold the finest quality whole leaf grade teas. Our tea bags are 100% biodegradable and are made from food grade polymer derived from corn starch. This natural material has a biorenewable profile and carries the 'GreenPla' mark.

We fill our tea bags with the same high quality tea that we use for our loose leaf tea. These unique bags give the leaves room to brew for a fine and flavoursome liquor.
